

Comprehensive combinations of research and practice in action

Lab

-Reading, Talking, Writing-

Summer School

-Dancing, Connecting, Exploring-

Research Support Day

-Writing, Sharing, Developing-

THE LAB / the learning lab / online

ZOE SCHOOL invites all Dance/Movement Therapists (DMTs), Dance for Health (DfH) practitioners, researchers, and healthcare management professionals to explore the intersection of expressive movement, dance, improvisation, and therapeutic benefits. Hear directly from research authors to enhance your expertise and impact in these fields.

SUMMER SCHOOL / the living lab / 4 days in Basel, Switzerland

ZOE SCHOOL welcomes DMTs, DfHs (both licensed and in training), and healthcare professionals interested in the expressive body and movement improvisation. Learn how to integrate these elements into your practice with diverse patient groups. Join us to bridge the gap between research, evidence, and practical applications.

SUMMER SCHOOL EXTENSION/ the research support lab/ 5th day in Basel

Students will delve into scientific literature, developing the skills needed to write research and program proposals relevant to their practice. Learn how to prepare submissions for ethics approval and funding applications and strategize on securing resources for innovative projects.
